Arc.I.Tek is a competition comprised of a series of workshops designed to engage and guide young Seattle citizens in learning the process of architecture and design. Kids will be developing their skill sets while professionals assist them to shape their vision of the future, ultimately empowering them to make a difference in Seattle

Entrants, Ages 7 Thru 18 (Grades 1-12), Will Arrive At Seattle Center's Next Fifty Digital Classroom In The Intiamn Playhouse On The Second Floor to attend a 4 hour workshop lead by industry design professionals. The workshop is comprised of a brief review of the history and the legacy of the 1962 Seattle World's Fair and Seattle Center followed by a 3 hour design session for Seattle's young citizens to build architectural concept models as entries for thier vision of a world's fair in 2062.

LAKEVILLE HOMES

Gray  
MAGAZINE: PACIFIC NORTHWEST DESIGN

**WHERE:** The Digital Classroom on the 2nd floor of the Intlman Playhouse at Seattle Center.

**WHEN:** Every third Saturday each month. Each workshop is a seperate event, and participants do not have to attend more than one event to complete the experience, build their model and be part of the design competition!

**COST:** \$20 per entry. Scholarships available upon request.

An "expression" webpage will be created for each entry by the Arc.I.Tek team which go live starting September thru October 13th. Entrants will be encouraged to socially "share" thier designs thru the website which will be a factor in the final judging of the models. Select models will be on display throughout The Next Fifty Celebration.

**CRITERIA FOR JUDGING:** SUSTAINABILITY, INNOVATION & SOCIAL SHARING

**AWARDS:** (categories will be defined for varying age groups/grades)

**Novice:** Grades 1 - 4

**Apprentice:** Grades 5-8

**Distinguished:** Grades 9-12
